

Nebraska Fur Harvesters Higher Education Scholarship

For over fifty years, the Nebraska Fur Harvesters organization has supported wise use and management of wildlife and natural resources, as well as wildlife conflict management, livestock protection, public damage mitigation, and public health protection. At our core, we are trappers and hunters, but in reality we represent a much broader contingency, including eventually, everyone who values robust, healthy wildlife populations.

To that end, NFH awards an annual academic scholarship. Our association hopes to be a small part of the effort to encourage youth to pursue their future endeavors in general, and in particular, aspire to help and support anyone hoping to engage in a career that will enhance, protect, and foster our world-recognized wildlife success stories in Nebraska, and beyond.

Please review the information, and submit your application, if you feel your goals are in line with ours. **Our deadline for application submission is April 1.** Return the completed applications to:

The scholarship is for \$500

Extra-Curricular and Personal Activities:

(Please attach a high school transcript.)

Couse of Study you plan to pursue:

Work Experience:

PERSONAL STATEMENT: It is our goal to get to know you as well as possible through this application. With this in mind, please describe in detail some special interests, experiences, or achievements; or anything else you would like us to know about you. Feel free to include information related to family needs, etc., if appropriate. Please also mention any and all connections/memberships, etc., that you or family members may have to the Nebraska Fur Harvesters, or any wildlife related interests in general.

Perhaps most important, address how your future plans may have any involvement or influence in the future of furbearer management in particular, or the broad world of wildlife management in general.

Conclude with Signature, and date.)
